To: 

Dear Harry:

Thank you for your recent birthday greetings which are welcome at any time. You doctors keep me going strong even though I had a fall in March 2010 and broke my second vertebra. Wearing a stiff collar for three months and a soft collar for another month is something I would not wish on an American coin doctor or Chinese coin forger. I am told that I am reasonably healed and can expect to reach 100 late next spring with a few marbles still rolling.

What I would now appreciate is another copy of the 4 page addenda to PW because I happen to have found a few years ago the original trial plates of the 1793 cents in my copy of the AJN as Neiswinter has previously written about. These are apparently the earliest photographic American coin images.

My best to you fellow Rittnhouser.

Eric
